BLOOD RENOVATOR Is precisely what its name indicates, for, w pleasant to the taste, it is revivifying, exhib-ing, lavigorating and strengthening to the powers and at the same time revivides, states, and renews the Blood in all its purity

ing. invigorating and strengthening is the vital powers, and at the same time revivities, rein states, and renews the Blood in all its purity and thus at once restores and renders the system in culmerable to attacks of disease. It is the only preparation ever offered to the world, so chemically and skillfully combined as to be the most p werful tonic, and at the same time so perfectly dapted to, as to act in perfect accordance with the awas of nature, and hence will sooks the exceakest stomach, and tone up the digestive organs, and thus silay all nervous and other irritation. It is perfectly exhilarating, and at the same time it is composed entirely of vegetables, yet so combined as to produce the most thorough tonic effect, without praducing any injurious consequences. Such a remedy has long been felt to be a desideration in the medical world, for it needs no medical shill to see that debitity follows all attacks of disease, and proceeds and indeed lays the system open to the insidious attacks of many of the most fatal, such, for example, as the following: Consumption, Indigestion, Dyspepsia, Lexi of Appellie, Faintines, Nervous irritability, Neuringia Palpitation of the Heart, Melancholy, Night Sweats, Languor, Giddiness, Retention of, as well as Palnful obstructed too profuse, or too scant Menstruation, and Falling of the Womb. There all depend upon general debility. This pure, healthy, tonic Cordial and Blood Renovator is as sure to cure as the sun to cise and set. There is no mistake about it. But this is not all. If the system is weakened, we are pen to bilious attacks, the liver becomes torpid or worse diseased, the kidneys refuse to perform their functions, and we are troubled with scalding and incontinence of urine, or involuntary discharge of the same, pain in the back, side and between the shoulders, exceedingly lished to slight colds, coughs, and if unchecked, soon emeciation follows, and the patient gees down to a premaiure grave. But space will not allow us to enumerate the many life to which we a

We will also say the traveler exposed to epidemies, change of climate and water, will find it a pleasant, saic and enre remedy, and none should ever travel without. Reader try it for we assure you you will find it a period indeed, as well as a friend in need. All persons of sedentary habits will find it a perfect preventive of as well as our for those aliments to which they are particularly exposed. Hence ministers, students, at torneys, literary gentlemen, and ladies who are not accustomed to much outdoor exercise, will find it of their advantage to keep a bottle constantly on band; and, above all, mothers, or these becoming such; will go through that most dangerous period oct only with all their accustomed strength, but aske and free from the thousand aliments so prevalent among the female portion of the world.
